実用英語技能検定

主催：財団法人 日本英語検定協会

後援：文部科学省

2 級

2011 年 1 月23日(日) 実施

■ 試験時間

筆記試験 (75分)

リスニングテスト (約25分)

■ 注意事項

1. 試験開始まで、この問題冊子を開いてはいけません。
2. 解答は、解答用紙に直接記入してください（問題冊子にはメモをしてもかまいませんが、後で解答用紙に解答を書き写す時間はありません）。
3. 問題内容に関する質問は一切受けつけません。
4. 不正行為をした場合は、答案は無効となります。
5. 他の受験者に迷惑をかける行為は慎んでください。
6. リスニングテストの際、やむを得ず教室外へ出た場合は、その後教室に戻りテストを受けることはできません。
7. 携帯電話・PHS・電子音などの出る時計・その他試験を妨げる音の出る機器等の電源は必ず切って机の上に置き、絶対に使用しないでください。
8. 多機能付時計は時計としてのみ使用してください。
9. 問題冊子は持ち帰っても結構です。
10. 採点結果等については、一切異議申し立てはできません。
11. この試験問題の複製（コピー）を禁じます。また、この試験問題の一部または全部を協会の許可なく他に伝えたり、漏えい（インターネットや携帯サイト等に掲載することを含みます）することを禁じます。

*自分の学校や団体など(準会場)で受験する場合のみ記入してください。

A

次の英文 **A**, **B** を読み、その文意にそって (26) から (33) までの () に入れるのに最も適切なものを **1, 2, 3, 4** の中から一つ選び、その番号を解答用紙の所定欄にマークしなさい。

From Factories to Farms

As the world's economy changes, new industrial cities develop. One result is that many older industrial cities find themselves losing the factories and jobs that made them wealthy. A good example of this is Detroit, in the United States. Detroit's modern history began at the end of the 19th century, when a man named Ransom Olds built a car factory there. The cars produced by Olds were very popular, and soon other car manufacturers opened factories in the city. (**26**), the population began to increase. By 1950, Detroit was the fourth-largest city in America.

Some time later, however, (**27**) for Detroit's cars began to drop. Other countries were producing cheaper and more efficient cars, and more and more of the city's factories went out of business. Now, Detroit's population has fallen by half, and the city is full of empty factories and wasteland. Unemployment and poverty are common, and people are searching for good ways to use the empty land. One idea that is becoming increasingly popular is to go back to how the land was used before the car factories came—farming.

This idea started as a way to help (**28**) people who needed food. Taja Sevelle, a singer, began creating small gardens on empty land and encouraging volunteers to grow fruit and vegetables. The food was then given away to anyone in the neighborhood who needed it. Her idea was very successful and has since spread to many other cities. Now, John Hantz, a wealthy businessman, is taking this idea a step further. He has begun buying up unused land in Detroit to use for commercial farming. He faces many problems in making his business work, including polluted land and high taxes, but he is confident that he will be able to overcome them. He believes that growing crops on the land will not only bring him a (**29**), but also help to make Detroit a much greener city.

May I Take Your Order?

Many people have had the experience of visiting a restaurant where the waiter, instead of writing down customers' orders, simply remembers them. How do these waiters keep so much information in their heads? Customers are not the only people to (30) about this. Recently, scientists who study memory have also become interested in this question. Most experts believe that people use two types of memory—short-term memory and long-term memory. In general, people can only keep about four pieces of information in their short-term memories. Moreover, these memories fade after about 18 seconds. Many waiters, though, seem to have memories that perform much better.

Recently, a team of scientists in Buenos Aires, Argentina, carried out a study of waiters. The scientists wanted to do this because of the reputation of the city's waiters. Many of the older waiters in Buenos Aires's restaurants are (31) their ability to remember orders and deliver each one to the right customer without checking. The scientists had a group of eight volunteers visit restaurants and order drinks. The waiters remembered their orders and delivered each one to the right person, even when they had taken orders from other customers. However, after the volunteers ordered a second drink, they changed (32). Although the waiters were able to remember the orders, they became confused about which customer had ordered what drink. It was clear that the waiters were not remembering the customers but the places where they were sitting.

The scientists who carried out the study believe that the waiters create a map in their minds of where people are sitting. When the waiters take orders, they connect them to this map. This allows them to transfer information they hear into their long-term memories very quickly. The scientists hope that their research will help them develop ways of training that allow everybody to have memories as (33) as those of the waiters in Buenos Aires.

4

A

次の英文 **A**, **B**, **C** の内容に関して, (34) から (45) までの質問に対して最も適切なもの, または文を完成させるのに最も適切なものを **1**, **2**, **3**, **4** の中から一つ選び, その番号を解答用紙の所定欄にマークしなさい。

From: Jackie Golding <jackiegolding@petersoncollege.edu>
 To: Derrick Simmons <d-simmons@waverlyelectronics.com>
 Date: January 22, 2011
 Subject: Costume party

Dear Mr. Simmons,

I am a student at Peterson College, and I am writing to ask for your company's support for a charity event that I am helping to organize. The event is a costume party at the Arnfield Community Center. It is being held to raise money for Arnfield Action, which is a charity that provides wheelchairs and other equipment for disabled people.

We are hoping to offer a prize for the person at the party with the best costume. As the owner of the largest electronics store in Arnfield, perhaps you would consider donating something that we could give to the winner. A television, for instance, would be a very attractive prize. We will print posters to advertise the event, and your company's name would be included in the list of sponsors. It would be excellent publicity for Waverly Electronics.

If you are available sometime next week, I would like to come to your store with Rachel Stone, who has been volunteering at Arnfield Action for over five years. She will be able to give you more details about the charity's activities. The party is on March 15, and I would encourage you and your staff to come even if you are not able to provide a prize. Tickets are \$10 and can be bought on the Peterson College website.

Yours sincerely,
 Jackie Golding

(34)

Jackie Golding

- 1** works for a company that makes wheelchairs.
- 2** is trying to raise money to help disabled people.
- 3** wants Mr. Simmons to organize an event at her college.
- 4** will help provide costumes for the Arnfield Community Center.

(35)

How does Jackie Golding want Mr. Simmons to support the costume party?

- 1** By contacting other companies that might become sponsors.
- 2** By putting up posters in his store to advertise the party.
- 3** By donating something from his store to use as a prize.
- 4** By helping the winner to appear on a television program.

(36)

What is one thing that Jackie Golding says she wants to do next week?

- 1** Have a volunteer explain more about Arnfield Action's work.
- 2** Take some tickets to the store to give to Mr. Simmons's staff.
- 3** Attend a party that is going to be held at Waverly Electronics.
- 4** Put some information about Rachel Stone on her college's website.

Genetic Clues

In recent years, it has become common for police to use DNA analysis to solve crimes. This usually involves a technique known as “genetic fingerprinting.” Most of the genetic information in DNA is the same in everyone, but a small percentage is unique to each individual. By comparing someone’s DNA to that found at the scene of a crime, it is possible to prove that he or she was there. Now, though, the police have begun expanding this DNA analysis to cats.

The usefulness of this was first shown in Canada. The police there suspected a man of carrying out a murder, but they had no evidence that he was present at the crime. They did, however, find a jacket nearby on which there were some white hairs. One of the policemen remembered that the parents of the man had a white cat. They asked a scientist to compare DNA from both the cat and the white hairs. They also took DNA samples from other cats in the neighborhood. The DNA from the hairs and the parents’ cat turned out to be the same, and different from that of the other cats. This showed that the jacket belonged to the man, and he was sent to prison for the crime.

The biggest difficulty with genetic fingerprinting is making sure which part of the DNA is unique. For this reason, it is important to have examples of the DNA of genetically related animals to identify which genes are shared and which are not. With this in mind, the United States Federal Bureau of Investigation (FBI) requested scientists to establish databases of animal DNA. In response, a team led by Robert Grahn, a scientist at the University of California at Davis, began to collect DNA from cats around the world. The team’s database now has DNA from 1,394 different cats.

Although the scientists plan to include the DNA of dogs and other animals, they believe that the cat DNA will be especially useful. This is because cats leave fur behind wherever they go. This makes it almost impossible for people nearby to avoid getting fur on their clothes. For this reason, police confidently expect the DNA of cats to play a part in many future crime investigations.

(37) The technique of “genetic fingerprinting”

- 1** was first tested on cats but is now also being used for human beings.
- 2** relies on the fact that the DNA of each individual is slightly different.
- 3** can be used to determine the types of people likely to commit crimes.
- 4** is a way of discovering similarities between two separate crime scenes.

(38) What did genetic fingerprinting show the police in Canada?

- 1** That the white hairs found on a jacket belonged to the victim of a murder.
- 2** That the jacket found at the crime scene belonged to the murderer’s father.
- 3** That a man they suspected of murder had been at the scene of the crime.
- 4** That a man had been wrongly sent to prison for murdering someone.

(39) What is one thing that the new database will do?

- 1** Show which genes are shared by genetically related animals.
- 2** Provide a list of cats that have been at crime scenes around the world.
- 3** Store information about experts on genetic fingerprinting.
- 4** Identify which types of DNA are unique to humans.

(40) Why do the police think cat DNA will be more useful to them than DNA from other animals?

- 1** Cats are less likely to be noticed at a crime scene.
- 2** Cats have a wider variety of DNA than other animals.
- 3** Cat fur tends to remain at a crime scene for a longer time.
- 4** Cat fur is more likely to be found on criminals’ clothes.

The Sky Is the Limit

When the United States joined World War II in 1941, the country found it necessary to send soldiers and supplies across the Atlantic Ocean to Europe. Many of the ships it used, however, were sunk by German submarines. An American shipbuilder named Henry J. Kaiser came up with the idea of building huge airplanes that could be used instead of ships to carry the troops and equipment. He contacted Howard Hughes, a millionaire and airplane designer, and suggested that they build such a plane together.

In 1942, Hughes and Kaiser signed a contract with the U.S. government to develop the Hercules, a giant plane that could take off from and land on the ocean. They promised that it would be large enough to carry 750 soldiers and their equipment. The major problem they faced, however, was a shortage of metals caused by the war. This meant that the plane had to be built almost entirely of wood. Work started at Hughes's company in California.

Although the plane was needed immediately, the work took far longer than expected. One reason was that even the small amount of metal they wanted was difficult to obtain. Another was Hughes's concern with unimportant details. He would, for example, spend days worrying about the design of the plane's control panel. Eventually, Kaiser left the project and Hughes carried on alone. By the time he finished, though, the war was over. The Hercules was three times larger than any airplane that had been built before. Hughes had spent \$22 million of the government's money and \$8 million of his own money building it.

Many people doubted that such a huge airplane could fly, and they criticized Hughes for spending so much public money on it. In 1947, Hughes was called to Washington, D.C., for questioning by the government. During the investigation's summer break, however, he returned to California to take the Hercules on a test flight. To everyone's surprise, the huge plane rose 21 meters above the water and flew for about 1.6 kilometers. Hughes had shown his critics that the airplane could fly, and the government ended the investigation. Although the Hercules never flew again, it became known as an engineering miracle, one that showed that a huge size does not make flying impossible.

(41) Why did Henry J. Kaiser want to build huge airplanes during World War II?

- 1** He hoped to sell them to Howard Hughes's airline company.
- 2** Ships carrying men and equipment were often attacked.
- 3** Such airplanes could be used to sink enemy submarines.
- 4** It was becoming expensive for him to make ships.

(42) What was one difficulty faced by Hughes and Kaiser?

- 1** There was a shortage of wood in California.
- 2** They could not get all the metals that they needed.
- 3** Hughes's factory was located far from the Atlantic Ocean.
- 4** The airplane could not be designed to take off from land.

(43) What was one reason the Hercules took so long to build?

- 1** Kaiser left the project because the war had ended.
- 2** It was difficult to find workers because of the war.
- 3** Hughes spent a lot of time thinking about minor details.
- 4** The government did not provide the money it had promised.

(44) Why did the government end its investigation of Hughes?

- 1** His airplane never flew again after its first flight across the sea.
- 2** The war finished long before his airplane was ready to be used.
- 3** A test flight showed that his airplane was able to fly despite its size.
- 4** He successfully flew his airplane from California to Washington, D.C.

(45) Which of the following statements is true?

- 1** After the war, many people said Hughes had wasted government money.
- 2** Kaiser and Hughes argued over how much money to spend on the plane.
- 3** The Hercules project was not completed because Hughes ran out of money.
- 4** Hughes went to Washington, D.C., to get back the money he had spent on the project.

Listening Test

Grade 2

2級リスニングテストについて

①このリスニングテストには、第1部と第2部があります。

★英文はすべて一度しか読まれません。

第1部……対話を聞き、その質問に対して最も適切なものを **1, 2, 3, 4** の中から一つ選びなさい。

第2部……英文を聞き、その質問に対して最も適切なものを **1, 2, 3, 4** の中から一つ選びなさい。

②No. 30のあと、10秒すると試験終了の合図がありますので、筆記用具を置いてください。

第1部

- No. 1**
- 1** Take him to a science-fiction movie.
 - 2** Buy him a novel.
 - 3** Invite him to a party.
 - 4** Get him a job at a bookstore.

- No. 2**
- 1** She arrived at the stadium too late.
 - 2** She left her bag on someone else's seat.
 - 3** She lost her ticket.
 - 4** She sat in the wrong seat.

- No. 3**
- 1** Start taking music lessons.
 - 2** Play in a concert with Liz.
 - 3** Earn money playing the piano.
 - 4** Become famous someday.

- No. 4**
- 1** He can start working again soon.
 - 2** He should come back tomorrow.
 - 3** He needs to take more pills.
 - 4** He has to get another x-ray.

- No. 5**
- 1** She has never tried it before.
 - 2** It is sweeter than other ones.
 - 3** It is on sale now.
 - 4** She likes the taste.

- No. 6**
- 1** She needs to work some more.
 - 2** She is going to a café first.
 - 3** She has already eaten.
 - 4** She is looking for her report.

- No. 7**
- 1** Eating lunch with some clients.
 - 2** Having a meeting with some clients.
 - 3** Going to a client's company.
 - 4** Talking to a client on the phone.
- No. 8**
- 1** She has to go to a wedding next month.
 - 2** She dislikes warm weather.
 - 3** She wants to visit Hawaii again.
 - 4** She would like to have a new experience.
- No. 9**
- 1** Staying at a hotel.
 - 2** Traveling around the country.
 - 3** Meeting people.
 - 4** Playing volleyball.
- No. 10**
- 1** It opens at five o'clock.
 - 2** It has been busy lately.
 - 3** He can reserve a table for tomorrow.
 - 4** He can order food by telephone.
- No. 11**
- 1** Look for recipes.
 - 2** Make spaghetti.
 - 3** Go shopping.
 - 4** Clean the bathroom.
- No. 12**
- 1** He teaches a music class.
 - 2** He loves classical music.
 - 3** He has not played the guitar much.
 - 4** He can play many songs.
- No. 13**
- 1** What gifts to take to Japan.
 - 2** When to travel to Japan.
 - 3** Where to get Japanese candy.
 - 4** How to increase his business in Japan.
- No. 14**
- 1** It will take 30 minutes to fix it.
 - 2** It is a new model.
 - 3** It is being used now.
 - 4** It costs money to use it.
- No. 15**
- 1** To meet some classmates.
 - 2** To get leaves for an art project.
 - 3** To plant some trees.
 - 4** To take pictures for school.

Listening Test

第2部

- No. 16**
- 1** He cannot watch a basketball game.
 - 2** He cannot wear his contact lenses.
 - 3** He has to find a new eye doctor.
 - 4** He has to buy new glasses.
- No. 17**
- 1** Leave valuable items at home.
 - 2** Walk around in large groups.
 - 3** Bring art to sell at the festival.
 - 4** Carry their handbags at all times.
- No. 18**
- 1** Practice tennis at home.
 - 2** Work for a tennis club.
 - 3** Help build tennis courts.
 - 4** Play tennis at a different place.
- No. 19**
- 1** Produce more steel.
 - 2** Build more factories.
 - 3** Make the city look better.
 - 4** Grow more trees to sell.
- No. 20**
- 1** The ski lifts will stop.
 - 2** The ski-rental shop will close.
 - 3** The ski resort will open.
 - 4** The ski lesson will start.
- No. 21**
- 1** Jeff moved out of their apartment.
 - 2** Jeff did not keep their apartment tidy.
 - 3** Jeff did not get good grades in college.
 - 4** Jeff threw away Grant's things.
- No. 22**
- 1** He uses his nose to find snakes.
 - 2** He helps people train their dogs.
 - 3** He is much larger than most dogs.
 - 4** He protects the snakes living in a park.

- No. 23**
- 1** Buying a new car.
 - 2** Cleaning the car.
 - 3** Visiting her sister.
 - 4** Staying at home.
- No. 24**
- 1** Allowing people to see Web pages.
 - 2** Offering free transportation to cities.
 - 3** Holding computer-training workshops.
 - 4** Replacing old computers with new ones.
- No. 25**
- 1** Gain a little more weight.
 - 2** Play sports at his college.
 - 3** Work harder at his job.
 - 4** Exercise at a gym.
- No. 26**
- 1** The flight will take off late.
 - 2** The plane is at Travers Airport.
 - 3** The passengers should board now.
 - 4** The weather is good in Boston.
- No. 27**
- 1** He created a new soft drink.
 - 2** He found a new way to recycle trash.
 - 3** He helped design a new kind of label.
 - 4** He started working at a new company.
- No. 28**
- 1** It is celebrated by many couples.
 - 2** It is on the same day as Valentine's Day.
 - 3** It is well known in many countries.
 - 4** It is an old tradition.
- No. 29**
- 1** Call him at work.
 - 2** Start writing her book.
 - 3** Get a job in a pet store.
 - 4** Buy a pet dog.
- No. 30**
- 1** The basketball team beat a strong opponent.
 - 2** A new basketball coach was hired.
 - 3** The cheerleaders won a competition.
 - 4** A new student joined the cheerleading team.

■一次試験の結果について■

1) 結果通知方法

◆協会の指定した公開会場（本会場）で受験した場合
一次個人成績表に合否結果を記載して、**2月14日**までに送付します（合格の場合は、一次個人成績表の右上部分が二次受験票になります）。未着の場合は2月15日以降に英検サービスセンター03(3266)8311（平日10時～17時）までお問い合わせください（お問い合わせの際には受験番号もお知らせください）。

◆自分の学校や団体など（準会場）で受験した場合

一次個人成績表は**2月14日**までに申込責任者（学校の先生または団体の担当者の方）あてに送付します（個人あてには送付しません）。

2) 合否および得点の通知について

合格者には「合格」、不合格者には合格ラインに近い順より「不合格A」「不合格B」の2段階で合否結果を通知します。また、合格点、解答状況、大問別得点、および「語い・熟語・文法」「読解」「作文」「リスニング」の各分野別得点也表示されます。なお、各分野は下記の大問により測定されます。

*「語い・熟語・文法」—————大問 [1]
*「読解」—————大問 [3]・[4]
*「作文」—————大問 [2]
*「リスニング」—————第1・2部

■二次試験について(一次試験合格者のみ)■

1) 試験日 2011年2月20日(日)

2) 受験地（希望の受験地を選べます）

右記の二次試験受験地番号表をみて、希望の受験地番号を解答用紙（準会場で受験している場合は志願票）の所定欄に記入・マークしてください。

3) 受験会場と集合時刻（協会が指定します）

二次受験票（一次個人成績表の右上部分）で通知します。これを切り離してお持ちください。ダブル受験（2級と準1級または2級と準2級）で一次試験をどちらの級も合格した方は、午前に準1級または準2級、午後に2級の受験となります。

二次試験当日は特に以下の点にご注意ください

* 集合時間厳守

集合時間は厳守してください。遅刻した場合は、原則として受験を認めることはできません。

* 携帯電話等使用禁止

試験会場内での携帯電話等の使用を一切禁止します。携帯電話等を使用した場合は、理由のいかんにかかわらず、失格になります。
