2

実用英語技能検定

主催：財団法人 日本英語検定協会

後援：文部科学省

2 級

2012 年 1 月22日(日) 実施

■ 試験時間

筆記試験 (75分)

リスニングテスト (約25分)

■ 注意事項

1. 試験開始まで、この問題冊子を開いてはいけません。
2. 解答は、解答用紙に直接記入してください（問題冊子にはメモをしてもかまいませんが、後で解答用紙に解答を書き写す時間はありません）。
3. 問題内容に関する質問は一切受けつけません。
4. 不正行為をした場合は、答案は無効となります。
5. 他の受験者に迷惑をかける行為は慎んでください。
6. リスニングテストの際、やむを得ず教室外へ出た場合は、その後教室に戻りテストを受けることはできません。
7. 携帯電話・PHS・電子音などの出る時計・その他試験を妨げる音の出る機器等の電源は必ず切って机の上に置き、絶対に使用しないでください。
8. 多機能付時計は時計としてのみ使用してください。
9. 問題冊子は持ち帰っても結構です。
10. 採点結果等については、一切異議申し立てはできません。
11. この試験問題の複製（コピー）を禁じます。また、この試験問題の一部または全部を協会の許可なく他に伝えたり、漏えい（インターネットや携帯サイト等に掲載することを含みます）することを禁じます。

*自分の学校や団体など(準会場)で受験する場合のみ記入してください。

1

次の (1) から (20) までの () に入れるのに最も適切なものを **1, 2, 3, 4** の中から一つ選び、その番号を解答用紙の所定欄にマークしなさい。

- (1) **A** : I have to give an important speech next week in front of my boss and all my co-workers. I'm so nervous.
B : Charles, you should have more () in yourself. You're a great speaker.
1 confidence **2** wonder **3** balance **4** curiosity
- (2) Mr. Thompson is a very strict teacher. He does not () students to talk in the classroom, and his tests are very difficult.
1 permit **2** restore **3** suggest **4** fail
- (3) Ken and Ted get along well even though they have () personalities. Ken is outgoing and enjoys meeting new people, while Ted is a very quiet person.
1 valuable **2** effective **3** opposite **4** political
- (4) **A** : Sean, I'm going to stop by your apartment this weekend to return your DVD. But I'll definitely call you ().
B : Please do that, Donna. It'll give me time to clean up a little.
1 otherwise **2** instead **3** furthermore **4** beforehand
- (5) The fireman who rescued the family was given a special () for bravery by the city.
1 award **2** trade **3** route **4** measure
- (6) Gina kept a diary while she was traveling across the United States last spring. She wrote about the people she () and the conversations she had with them.
1 produced **2** encountered **3** detected **4** suspended
- (7) When Kaori started taking dance classes, her () was to become a ballet dancer, but she soon realized that she liked tap dancing more.
1 intention **2** suspicion **3** exception **4** demonstration
- (8) **A** : John, when we go to Japan this summer, I'd rather not start in Tokyo.
B : OK. Then let's () the order. We can start in Hiroshima, then go to Kyoto, and finish in Tokyo.
1 demand **2** serve **3** attract **4** reverse
- (9) Last week, Maria was chosen as Employee of the Year at her company. To celebrate this (), her husband took her to a nice restaurant.
1 retirement **2** achievement **3** mixture **4** quantity
- (10) Some of Tom's co-workers were trying to raise money for a charity that builds schools in poor countries. Tom decided to () \$50.
1 perform **2** contribute **3** concentrate **4** preview

- (11) **A** : Mom, are you listening? This is important. It's about my plans to go to college.
B : Yes, I'm listening. I'm all ().
1 ears **2** hands **3** toes **4** eyes
- (12) **A** : I really don't want to go to today's meeting. Mr. Lee always asks me lots of hard questions.
B : You have to go, Steve. You can't just () from your problems. You have to try to solve them.
1 pass over **2** try out **3** run away **4** go along
- (13) **A** : I didn't want to go to France for our vacation, but my husband insisted.
B : You shouldn't always let him have his own (). Sometimes you should make him do what you want to do.
1 line **2** case **3** belief **4** way
- (14) Whenever his students get noisy, Mr. Reinhart stands at the front of the room with his arms () and waits for them to be quiet.
1 stuck **2** connected **3** folded **4** caught
- (15) **A** : Two hundred dollars a night! That seems expensive for a hotel.
B : Actually, it's pretty cheap if you take into () the fact that the price includes two meals.
1 appearance **2** experience **3** account **4** export
- (16) **A** : Have you finished reading that report from the marketing department?
B : Yes, but it was really long. It took me three hours to () it.
1 get through **2** wander around
3 come across **4** take after
- (17) Storytelling has always been used as a way to () wisdom from generation to generation.
1 leave out **2** pass down **3** warm up **4** head for
- (18) Jonathan has the morning newspaper () to his house because he likes to read the news while eating his breakfast.
1 deliver **2** delivered **3** delivering **4** to deliver
- (19) **A** : I've already spent \$4,000 on furniture for my new house, but I still don't have everything I need.
B : You should have gone to the used-furniture store. With that much money, you () able to buy everything you need without any problem.
1 would have been **2** will be
3 had been **4** were
- (20) Richard does not really like his job, and he considered () the company last month. But his friends advised him to stay because it would be hard to find a new job.
1 leave **2** leaving **3** left **4** to leave

2

次の英文がそれぞれ完成した文章になるように、その文意にそって (21) から (25) までの 1 から 5 を並べ替えなさい。そして 2 番目と 4 番目にくる最も適切なものを一つずつ選び、その番号を解答用紙の所定欄にマークしなさい。ただし、() の中では文頭にくる語も小文字で示してあります。

(21) **A** : What do you think of this sofa, Ellen? It looks like the one that you were looking at on the Internet yesterday.

B : Actually, this () online. I'm surprised we found it at this store.

1 sofa

2 I

次の英文 **A**, **B** を読み、その文意にそって (26) から (33) までの () に入れるのに最も適切なものを **1, 2, 3, 4** の中から一つ選び、その番号を解答用紙の所定欄にマークしなさい。

Using Energy Wisely

Over the last few decades, the negative effects on the environment of burning fossil fuels have become increasingly obvious. As a result, governments have been trying hard to get people to reduce the amount of energy they use. A recent survey carried out in the United States, however, has shown that many people are (**26**) about the best way to do this.

When people were asked what would be the best way to cut down on energy use, the most common answer was to turn off lights as much as possible. According to experts, however, this saves very little electricity. On the other hand, few people suggested changing to a car that uses less fuel. This, though, would make a much greater (**27**) to the environment. Another effective way to save energy is to put material inside the walls of a house so as to keep heat from escaping. This answer, too, was given by very few people.

Why do so many people have the wrong idea about what they should do to protect the environment? According to Shahzeen Attari of Columbia University in New York City, one of the researchers who carried out the survey, there are various reasons. One is that experts have not been good at informing the public about what they should do. Another is that most people think simply of continuing to use the things they usually use, but less often. In fact, if people were to change to newer (**28**), they could carry on living in the same way but still use much less energy. For example, if people change to new kinds of highly efficient light bulbs, they can leave them on all the time and still use much less electricity than before. According to Attari, it is important that governments (**29**) people to invest in the new fuel-saving inventions that are now available.

Healthy Messages

Cell phones have become an important part of most people's lives. According to one survey, 86 percent of all American adults today have a cell phone, and 40 percent use their cell phones to connect to the Internet. Cell phones have had an impact on how people do business and also on how they spend their leisure time. (**30**), many medical professionals are now investigating how to use cell phones to help them look after people's health.

One quite simple way in which cell phones are being used in the medical field is to give instructions to patients about treatment. One clinic in Boston, for example, has begun sending text messages to patients whose skin is especially sensitive to the sun. The messages, which are based on weather forecasts, warn them when they must protect their skin with sunscreen lotion. According to the clinic, (**31**) use of sunscreen lotion has increased by 40 percent. Similarly, a hospital in New York City sends messages to teenage patients reminding them to take their medicine. If the hospital does not receive a reply, it then contacts the patient's parents and has them check that the medicine has been taken.

A more complicated experiment is being carried out by Dr. Richard Katz of Washington, D.C. His patients need to (**32**) the amount of sugar in their blood carefully. The patients measure their sugar levels with a special machine and then use cell phones connected to the Internet to send in the results each day. If the sugar level becomes too high, the patient receives a message explaining what to do to bring it down again. When the patient goes for a checkup, the doctor uses the daily measurements to help judge the patient's condition. According to Katz, the new system not only helps keep patients healthy but also saves (**33**). This is because it avoids the need for costly emergency treatment at the hospital.

A

次の英文 **A**, **B**, **C** の内容に関して, (34) から (45) までの質問に対して最も適切なもの, または文を完成させるのに最も適切なものを **1, 2, 3, 4** の中から一つ選び, その番号を解答用紙の所定欄にマークしなさい。

From: Karen Stevens <karenstevens@southbridgecollege.edu>
 To: Tom Howard <t-howard@neptunegaming.com>
 Date: January 22, 2012
 Subject: Debate at Southbridge College

Dear Mr. Howard,

I am president of the Southbridge College Debating Club, and I am writing to ask you to be a guest speaker in a debate at the college on March 3. The debate is about whether video games are a bad influence on teenagers. I heard you used to be a student here and that you work for a software company that makes educational video games. You would be an excellent person to argue that video games can benefit young people.

In the debate, you would be on a team with two students—Wendy Smith and Clive Knight. If you agree to take part, I will ask Wendy and Clive to get in touch with you so that you can plan your speeches together. The guest speaker on the other team is Joan Kent, who wrote a book called *The Outdoor Family*. She believes that parents should not allow their children to play video games.

The aim of the debate is to raise money for Southbridge Children's Hospital. We will sell tickets to the public for \$10 each. At the end of February, Southbridge Radio will broadcast a short news story about the debate, during which a reporter will interview Ms. Kent. With luck, the interview will make more people want to come to the event.

Please let me know if you are free to join us on March 3.

Yours sincerely,
 Karen Stevens

- (34) What is one thing Karen Stevens wants Mr. Howard to do?
- 1 Tell students at the college why he stopped playing video games.
 - 2 Become the next president of the Southbridge College Debating Club.
 - 3 Help her to find a job at a company that makes educational software.
 - 4 Argue that video games can have a positive effect on young people.
- (35) If Mr. Howard decides to take part in the debate,
- 1 he will be on the same team as the author Joan Kent.
 - 2 the students who will be on his team will contact him in advance.
 - 3 Karen Stevens will send him a copy of *The Outdoor Family*.
 - 4 members of the debating club will write his speech for him.
- (36) Karen Stevens says she hopes that
- 1 the debate will make students want to visit Southbridge Children's Hospital.
 - 2 Mr. Howard will agree to take part in a program on Southbridge Radio.
 - 3 Joan Kent's radio interview will help the club sell more tickets.
 - 4 a local radio station will broadcast the debate on March 3.

Born Athletes?

In recent years, scientists have learned more and more about the ways in which our DNA can influence our development and abilities. As a result, society is increasingly being faced with the problem of deciding how to use such research. Should we analyze people's DNA and use this information to make decisions about how they should live? A good example of this kind of problem has recently appeared in connection with sports.

In 2003, a group of scientists suggested that there could be a relationship between sporting ability and a gene known as ACTN3. Everyone has two ACTN3 genes, one from their mother and one from their father. These genes, however, come in two types. The R type of gene causes the body to build a protein that gives muscles a short burst of extra power. The X type stops this protein from being produced. Although many people have one of each type, the scientists suggested that people who are good at running quickly for a short time are more likely to have two R types. There is also some evidence that people who are good at running long distances, on the other hand, are more likely to have two X types.

Now, a company in the United States has started selling kits that allow parents to find out which kind of ACTN3 their children have. The parents take a small sample of their children's DNA and send it to the company for analysis. The company then sends back the results. The company says this service allows parents to find out which kinds of sports their children are likely to be better at. So far, a few hundred parents have bought the service.

Many experts, though, criticize this use of DNA research. Some say that the tests are useless because sporting ability involves many factors, not just one gene. Others are concerned that the tests may lead parents to force their children to play one sport rather than another. They say that the problem is not so much the DNA research itself. Rather, it is the fact that some parents seem to be determined to make their children into star athletes at any cost.

(37) What is one problem faced by society today?

- 1 Getting people to agree to DNA analysis.
 - 2 Preventing athletes from changing their DNA.
 - 3 Deciding the right way to use DNA research.
 - 4 Keeping the results of DNA tests private.
-

(38) How are the R type and X type of ACTN3 different?

- 1 The R type gives muscles more power for a short time.
 - 2 The R type is usually found together with another R type.
 - 3 The X type always comes from the DNA of one's mother.
 - 4 The X type makes it hard for people to do well at sports.
-

(39) Why do parents buy the ACTN3 kit?

- 1 To help their children find out about DNA analysis.
 - 2 To decide what school to send their children to.
 - 3 To learn about their children's ability at sports.
 - 4 To find out about their children's likes and dislikes.
-

(40) Some experts say that

- 1 DNA tests should be carried out by doctors rather than parents.
- 2 ACTN3 is just one of many things that affect sporting ability.
- 3 children should spend much less time on sports than they do now.
- 4 the testing kits give some children too much of an advantage.

Preserving Plants

Every year, over a million people visit Kew Gardens, a large park in London that originally belonged to Britain's Royal Family. Visitors go there to enjoy the park's beautiful trees and flowers. What many visitors do not realize, however, is that Kew Gardens is also home to the world's largest collection of plant samples. These are kept in a special building known as the Herbarium. Today, this collection is playing an important role in saving wild plants from extinction.

The Herbarium was founded in 1852. The first director of Kew Gardens, William Hooker, determined to collect examples of plants from all parts of the globe. He sent out collectors to gather samples for the Herbarium. These samples were then dried and glued to large sheets of paper. On each sheet, a note was made of where and when the plant had been found. This work continues today, and the Herbarium now employs 180 scientists, who gather up to 50,000 new samples every year.

Recently, scientists at Kew Gardens decided to carry out a survey to discover how many plants are threatened by extinction. The world contains a huge number of plant species, and it would not have been practical to check on all of them. Instead, the scientists decided to create five lists that would be representative of the world's five major groups of plants. Using the Herbarium's collection, the scientists chose 1,500 species at random from each group. They then asked experts around the world to find out whether these species were in danger. Based on the answers, they were able to get a better idea of the threat to the plants in each group.

The survey has shown that plants today are even more under threat than animals. This is something that many scientists had already suspected to be true. In fact, the survey suggests that around one-fifth of all plant species are in danger. The main cause is the destruction of their habitats by humans. According to the present director of Kew Gardens, Stephen Hopper, the importance of plants has been overlooked for far too long. He hopes that the list will allow conservationists to decide which plants and habitats need the most protection, helping to preserve the great variety of plants in nature.

(41) The Herbarium at Kew Gardens

- 1** will soon have to close unless more people start visiting it.
- 2** is used to provide the park's beautiful trees and flowers.
- 3** was built for plants that belong to the British Royal Family.
- 4** contains the biggest collection of plant samples in the world.

(42) After William Hooker became director of Kew Gardens, he

- 1** gave plant samples from Kew Gardens to experts in other countries.
- 2** sent people to different places around the world to gather plant samples.
- 3** employed scientists to find new ways to display dried flowers.
- 4** built the Herbarium to keep plants that were in danger of extinction.

(43) The scientists at Kew Gardens

- 1** tried to find out how many endangered plants there are in the world.
- 2** recorded detailed information about 1,500 different extinct plants.
- 3** discovered a large number of plants that had never been seen before.
- 4** based their research on the opinions of visitors to the Herbarium.

(44) What does Stephen Hopper think?

- 1** Many plant habitats are being taken over by endangered animals.
- 2** Kew Gardens should give more space to plants that are in danger.
- 3** People have not paid enough attention to protecting plant species.
- 4** Scientists often overlook the need to search for new plants.

(45) Which of the following statements is true?

- 1** People who answered the survey made many suggestions on how to conserve plants.
- 2** Stephen Hopper was asked to try to get the dried plants in the Herbarium to grow again.
- 3** Plants that were once thought to be extinct have been found growing at Kew Gardens.
- 4** The fact that plants were more endangered than animals was not a surprise to many scientists.

Listening Test

Grade 2

2級リスニングテストについて

①このリスニングテストには、第1部と第2部があります。

★英文はすべて一度しか読まれません。

第1部……対話を聞き、その質問に対して最も適切なものを **1, 2, 3, 4** の中から一つ選びなさい。

第2部……英文を聞き、その質問に対して最も適切なものを **1, 2, 3, 4** の中から一つ選びなさい。

②No. 30のあと、10秒すると試験終了の合図がありますので、筆記用具を置いてください。

第1部

- | | |
|--------------|---|
| <i>No. 1</i> | 1 Catch a train in 20 minutes.
2 Take a taxi downtown.
3 Try out another coffee shop.
4 Go to a different bus stop. |
| <i>No. 2</i> | 1 Feed the man's dog.
2 Shut the man's gate.
3 Call the man back.
4 Visit the man's office. |
| <i>No. 3</i> | 1 She began gardening this year.
2 She works at a gardening store.
3 She will give the man gardening advice.
4 She enjoys gardening. |
| <i>No. 4</i> | 1 Look at some drink advertisements.
2 Help him give out drinks.
3 Try his company's new drink.
4 Suggest a flavor for a drink. |
| <i>No. 5</i> | 1 She is taking a class.
2 She has started her own business.
3 She will call the woman.
4 She moved to a different street. |
| <i>No. 6</i> | 1 He picked some coconuts.
2 He ate a lot of candy.
3 He saw many famous sights.
4 He visited a factory. |

- No. 7**
- 1** He could not find the CD he wanted.
 - 2** He had to wait for service.
 - 3** The store was too crowded.
 - 4** The cash register was broken.
- No. 8**
- 1** Shop at a market.
 - 2** Go to a music festival.
 - 3** Visit friends in Summerville.
 - 4** Take a river cruise.
- No. 9**
- 1** Check some reports for her.
 - 2** Go out for coffee with her.
 - 3** Help her fix a computer.
 - 4** Contact a repairperson.
- No. 10**
- 1** The thunderstorm is too noisy.
 - 2** They do not have any candles.
 - 3** Their electricity has stopped working.
 - 4** Their kitchen window is broken.
- No. 11**
- 1** Teach Italian at a high school.
 - 2** Travel to Italy with her friend.
 - 3** Talk with the man's brother in Italian.
 - 4** Do research about Italy.
- No. 12**
- 1** Where he can get an influenza shot.
 - 2** Whether he can play sports tomorrow.
 - 3** What information to give to the doctor.
 - 4** How often he should take his medicine.
- No. 13**
- 1** She did not enjoy the party last year.
 - 2** She has not had time to buy a gift.
 - 3** She needs to work overtime.
 - 4** She has made plans with her sister.
- No. 14**
- 1** It is less crowded than the Red Line.
 - 2** It is cheaper than the Red Line.
 - 3** It is the fastest way to Park Station.
 - 4** It is the only line going to Park Station.
- No. 15**
- 1** He does not like the school's CDs.
 - 2** There are too many students in the class.
 - 3** The lessons cost too much.
 - 4** Their Swahili teacher has left.

Listening Test

第2部

- No. 16**
- 1** She read a book about the company.
 - 2** She asked a friend questions about interviews.
 - 3** She bought some new clothes.
 - 4** She practiced talking in front of a mirror.
- No. 17**
- 1** It is the oldest kind of apple.

右記の二次試験受験地番号表をみて、希望の受験地番号を解答用紙（準会場で受験している場合は志願票）の所定欄に記入・マークしてください。

3) 受験会場と集合時刻（協会が指定します）

二次受験票（一次個人成績表の右上部分）で通知します。これを切り離してお持ちください。ダブル受験（2級と準1級または2級と準2級）で一次試験をどちらの級も合格した方は、午前に準1級または準2級、午後に2級の受験となります。

二次試験当日は特に以下の点にご注意ください

* 集合時間厳守

集合時間は厳守してください。遅刻した場合は、原則として受験を認めることはできません。

* 携帯電話等使用禁止

試験会場内での携帯電話等の使用を一切禁止します。携帯電話等を使用した場合は、理由のいかんにかかわらず、失格になります。

■二次試験受験地番号表■ (2011-3)

横浜市・東京都・大阪府
