

2019-1

Grade Pre-1

実用英語技能検定

主催：公益財団法人 日本英語検定協会

後援：文部科学省

準 1 級

2019 年 6 月 2 日(日) 実施

■ 試験時間

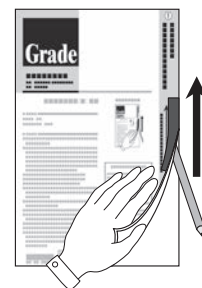

筆記試験 (90分)

リスニングテスト (約29分)

■ 注意事項

1. 合図があるまでシールを破いてはいけません。ミシン目に沿って丁寧に破いてください。問題冊子が破れても交換できません。
2. 試験開始まで、この問題冊子を開いてはいけません。
3. 解答は、解答用紙（マークシート）に記入してください。筆記①②③・リスニングの解答欄は解答用紙のA面（表面）、筆記④の解答欄は、解答用紙のB面（裏面）にあります。解答用紙以外に記入した解答は、すべて無効となります。問題冊子にはメモをしてもかまいませんが、後で解答用紙に解答を書き写す時間はありません。
4. 問題内容に関する質問は一切受けつけません。
5. 不正行為をした場合は、答案は無効となります。
6. 他の受験者に迷惑をかける行為を禁じます。
7. リスニングテストの準備時間、およびリスニングテスト中に教室外へ出た場合は、その後教室に戻りテストを受けることはできません。
8. 携帯電話などは必ず電源を切ってカバンにしまい、絶対に使用しないでください。
9. 電子機器（ウェアラブル端末を含む）の使用を禁じます。
10. 携帯電話などの着信音・バイブ音、その他試験を妨げる音を発生させた場合は、失格とすることがあります。
11. 試験終了後、問題冊子は持ち帰ってください。
12. 採点結果等については、一切異議申し立てはできません。
13. この試験問題の複製（コピー）を禁じます。また、この試験問題の一部または全部を協会の許可なく他に伝えたり、漏えい（インターネット上に掲載することを含みます）することを禁じます。

1

To complete each item, choose the best word or phrase from among the four choices. Then, on your answer sheet, find the number of the question and mark your answer.

- (1) The general refused to () information about the military's strategy for the war to the media. He was worried that doing so might help the enemy.
1 fracture **2** disclose **3** invoice **4** withstand
- (2) The man wrapped his dog's leash around a post and tied a () in it to make sure the dog could not run out of the yard.
1 chunk **2** horn **3** prop **4** knot
- (3) **A:** Margaret has lots of ideas about how to increase the company's profits.
B: Yeah, but most of them are (). That's why the bosses ignore them.
1 impassable **2** immeasurable **3** impractical **4** immediate
- (4) Religious issues have been a () theme in the author's books. His newest book is no different, as it focuses on the role of women in Eastern religions.
1 recurrent **2** swift **3** nautical **4** frantic
- (5) Despite the benefits for humans, many people say medical experiments on animals are not () because they cause too much suffering.
1 equivalent **2** ethical **3** extravagant **4** ethnic
- (6) Many students complained the book was very difficult to understand in places, so the teacher tried to () those sections using simpler language.
1 paraphrase **2** contradict **3** obstruct **4** scorn
- (7) Lately, more people have been trying to reduce the amount of garbage they create by avoiding () items such as paper plates and plastic knives and forks.
1 disposable **2** admirable **3** industrious **4** ingenious
- (8) Jane's boss asked her to () to finish the work she was given more quickly. She promised that she would do her best.
1 exceed **2** endeavor **3** entice **4** exhale
- (9) The couple was awoken in the night by an () who broke a window and entered their home. Whoever it was had left by the time the police arrived.
1 administrator **2** inspector **3** originator **4** intruder

- (10) After his retirement from office, the former mayor started an organization dedicated to the () of homelessness from his city.
 1 declaration 2 attachment 3 elimination 4 supplement
- (11) Jeff would love to go on vacation in Europe, but his low salary makes it () impossible for him to save enough money for such a trip.
 1 virtually 2 tenderly 3 vividly 4 diagonally
- (12) The government adopted new environmental regulations and stated that companies that fail to () will be fined.
 1 evade 2 comply 3 stare 4 horrify
- (13) Yesterday, many flights to Paris were canceled because of () weather conditions. Now that the weather has improved, flight schedules have returned to normal.
 1 victorious 2 needy 3 conventional 4 adverse
- (14) The politician had been very popular, so his funeral () stretched over several city blocks. Supporters followed the car carrying his body all the way to the church.
 1 gaze 2 summit 3 friction 4 procession
- (15) Despite his () appearance, the teacher created a relaxed atmosphere in his classroom, and he was gentle and kind to his students.
 1 shallow 2 stern 3 lean 4 aquatic
- (16) *A:* I really think the Johnsons () their daughter.
B: Yes, they give her whatever she wants. She never has to work for anything.
 1 rotate 2 spoil 3 rehabilitate 4 gargle
- (17) Clare's hands began to () with fear moments before she walked on stage for her violin solo. After she played the first note, however, she felt more relaxed.
 1 tremble 2 magnify 3 sympathize 4 harass
- (18) When Horst dropped his plate on the floor, it broke into many small (). He cleaned them all up carefully so that he would not step on one and hurt his foot.
 1 fragments 2 diagrams 3 monarchs 4 novelties

- (19) The data-security consultant warned that the company's computers were () to virus attacks and needed to be made safer.
1 vulnerable **2** instructive **3** stale **4** genuine
- (20) Stephan has been () by his manager to lead the new advertising project. He is nervous but also excited to be given such a responsibility.
1 encased **2** minimized **3** designated **4** interrupted
- (21) The flowers had very long (), so Glenda had to cut them before putting them in a vase.
1 tombs **2** bolts **3** stems **4** ashes
- (22) Rodolfo's boss, Susan, was angry with him when the client canceled the contract, but his colleagues () him. They told the boss it was not his fault.
1 stuck up for **2** slipped by
3 talked down to **4** grew into
- (23) The musician started his career as a traditional jazz pianist, but his music later () and developed into a unique style of jazz.
1 skimmed over **2** branched off
3 tipped over **4** scratched out
- (24) The management tried to end the strike by offering a small pay increase, but the union decided to () until workers were also offered more vacation days.
1 hold out **2** wash away **3** pass out **4** blast off
- (25) Raquel () the poor children she often saw asking for money on the street. She always offered them her spare change, and she brought them food whenever she could.
1 turned down **2** packed up **3** aired out **4** felt for

Read each passage and choose the best word or phrase from among the four choices for each blank. Then, on your answer sheet, find the number of the question and mark your answer.

The Mud Angels

In Florence, Italy, artists such as Michelangelo and Botticelli created works that remain among the world's greatest treasures. In 1966, however, steady rains caused the Arno River to flood, burying the city in mud. Dozens died, and around 5,000 families lost their homes. (26), huge numbers of priceless books and artworks in churches, museums, and libraries were damaged and in danger of being lost forever.

Residents were too busy dealing with the disaster to save the artworks, and officials were slow to provide aid. As word spread, however, volunteers, who became known as "mud angels," arrived. Mainly youths, they came from all over the world to clear tons of mud and rescue over a million books and almost a thousand artworks. According to many historians, this effort (27). After World War II, heightened interest in other countries and a growing network of youth hostels led to an increase in youth travel. In fact, many of the volunteers had been backpacking through Europe when the disaster occurred, and simply altered their plans and went to Florence.

The flood (28). Donal Cooper, an art historian at Britain's University of Cambridge, says, "The post-flood response stands as a great achievement of international collaboration and laid the foundations for Italian excellence in art conservation." The situation's urgency inspired new restoration methods, raising art-conservation standards. Additionally, Florence's museums began conducting regular emergency drills. However, many authorities believe more should be done to control the river, such as building additional reservoirs upstream to hold excess water, if a future disaster is to be avoided.

(26) 1 For instance 2 Rather 3 Nevertheless 4 What is more

(27) 1 was influenced by a social trend 2 put a huge strain on the city
3 remains difficult to explain 4 came too late

(28) 1 inspired a new type of art
2 can also be seen in a positive light
3 also caused damage outside Florence
4 nearly became a more serious emergency

The Thaba-Tseka Development Project

In 1975, the World Bank funded the Thaba-Tseka Development Project, which attempted to provide aid in the African nation of Lesotho by improving livestock management. It was based primarily on a report claiming local people relied heavily on primitive farming customs and did not sell their cattle at market because they had little knowledge of the economy. Project leaders therefore recommended not only creating more roads, markets, and other types of infrastructure but also educating farmers. However, the (29). In his 1994 analysis of the project, *The Anti-Politics Machine*, James Ferguson of Stanford University pointed out that people in the region earned most of their income from wage labor rather than farming, and were already familiar with agricultural markets.

The Thaba-Tseka project generally failed to reach its goals. According to Ferguson, the aid workers who were in charge (30). They saw cattle as products to be bought and sold in a cash economy, whereas cattle owners in Thaba-Tseka were largely unwilling to sell cattle for cash because the animals served as status symbols, particularly for men. Cattle were also a form of security to be kept in case the owners encountered unexpected financial difficulties.

While Ferguson's work dealt with Lesotho, it offers lessons for development projects worldwide. All too often, outsiders come in with only limited knowledge of a region and attempt to fix complex problems by offering technical solutions that do not address the underlying causes. (31), it is unlikely that such solutions will offer a true, long-term benefit to the people they are intended to help.

- (29) 1 amount of time was limited
2 farmers had already received aid
3 report had not been accurate
4 local cattle were not fit for export

- (30) 1 had warned that this would happen
2 were unfamiliar with the local culture
3 tried to profit from the situation
4 could not cooperate with each other

- (31) 1 Despite this 2 In contrast 3 Otherwise 4 Not surprisingly

Read each passage and choose the best answer from among the four choices for each question. Then, on your answer sheet, find the number of the question and mark your answer.

Hostile Architecture

Benches with armrests in the middle, uneven concrete surfaces, and spikes around the edges of fountains are examples of hostile architecture, a form of urban design aimed at influencing social behavior in public spaces. The goal is to discourage people from using such spaces for purposes such as sleeping, skateboarding, or hanging out for extended periods of time. Governments and businesses are installing such features in response to complaints from people who feel threatened in environments where homeless people or teenagers gather, where skateboarders engage in risky behavior, or where criminals make drug deals. To supporters, hostile architecture is essential. They claim it serves society by defending the public against unacceptable behavior and troublemaking individuals, even though it makes spaces both unattractive and uncomfortable.

Architectural historian Iain Borden of University College London argues that such design is simply the most recent strategy for welcoming some populations while rejecting others. He says hostile architecture suggests that we are regarded as citizens only when “we are either working or consuming goods directly.” Hostile architecture allows people to take short breaks in public spaces—say, after buying something—but discourages anyone from spending time resting or socializing. London-based architect James Furzer is also critical of this approach, saying, “If we designed a building where people didn’t want to stay for too long, because it’s hostile and uncomfortable, have we succeeded in our jobs as architects? I don’t think so.”

Critics say rather than installing structures that simply push homeless people and teens to other places, officials should deal with the roots of the problem by, for example, prioritizing shelters, affordable housing, and programs to both reduce the number of homeless and get teenagers involved in productive activities. Furthermore, they say architecture can be used to influence behavior in a different way. “I feel we need to design spaces that encourage good behavior,” argues Furzer.

(32)

What argument is given in favor of hostile architecture?

- 1** It is important in order to ensure that governments are quick to repair damage to publicly funded structures.
- 2** It promotes employee satisfaction by encouraging workers to spend more time in outside areas during break periods.
- 3** It helps businesses protect themselves by forcing criminals to operate in open areas that can be easily observed.
- 4** It is necessary to ensure public safety in spite of the fact that it may reduce the appeal of shared spaces.

(33)

According to Iain Borden, hostile architecture

- 1** can sometimes have an effect on public behavior that is opposite to what its designers originally intended.
- 2** can actually make public spaces more comfortable since it improves the flow of pedestrian traffic in crowded areas.
- 3** sends the message that people are only considered to be true members of society when they are earning or spending money.
- 4** is designed by architects who care more about how spaces look than how citizens will want to use those spaces.

(34)

What is the main point suggested in the third paragraph?

- 1** The use of hostile architecture only lessens the symptoms of societal problems, while ignoring the actual causes.
- 2** Homeless people and others who spend time in public spaces must be consulted about their design.
- 3** Although homeless people and teenagers often intentionally damage architecture, the damage is usually minor.
- 4** Hostile architecture shows that architects are prioritizing their own financial gain over the opportunity to help society.

The Uncertainties of Celiac Disease

It seems unlikely that wartime circumstances would help solve a medical mystery, but that is what happened during World War II. Before the war, a Dutch doctor had been observing a puzzling condition in which local children with apparently healthy eating habits were unable to absorb nutrition from their food. They were losing weight and experiencing digestive problems. Then, in the winter of 1944, the German army cut off food supplies to the Netherlands. Thousands of Dutch citizens, left with little to eat but grass and tulip bulbs, died of starvation. Many children who had been sick from the mysterious disease, however, saw their symptoms improve dramatically. When bread was reintroduced to Dutch diets, the children got sick again. The connection was clear: something in the children's normal diet—specifically in the staple food of bread—was causing serious health problems.

Since that time, the cause of the children's illness, now known as celiac disease, has been identified as a group of proteins called gluten. Gluten is found in many grains, especially wheat, and it can cause an immune system problem in humans in which the body attacks its own cells. In the case of celiac disease, which affects around 1 percent of people worldwide, gluten causes a response that damages the intestines and prevents the gut from absorbing nutrients. Although the cause of celiac disease had been identified, the more researchers studied it, the more mysterious it seemed. They found that although about 30 percent of people with European heritage carry the genes associated with celiac disease, 95 percent of those people can eat gluten without experiencing any problem. Some other factor, it seems, is responsible for causing the symptoms.

One possible explanation is related to modern hygiene practices. A study of children living in towns across the border from each other in Finland and Russia showed that five times as many Finnish children suffered from celiac disease. This seemed strange because both populations share a very similar genetic background and history, and similar types of wheat are eaten in the towns. The average income in the Russian town, however, is one-fifteenth that of the neighboring Finns, and because sanitation practices are poorer, the Russian children are exposed to more bacteria. The researchers suspect this is behind the higher incidence of celiac disease in developed countries. Without exposure to bacteria that were once common in human environments, the immune system may overreact to substances such as gluten, leading to conditions such as celiac disease and allergies.

(35)

What was observed during World War II?

- 1** There was an increase in the rates of serious diseases among Dutch children who started eating more German foods.
- 2** Many sick Dutch children experienced an improvement in their health when their access to a staple food was cut off.
- 3** Health benefits were observed when some Dutch and German adults added grass and tulip bulbs to their regular diet.
- 4** Dutch children who ate a lot of bread weighed much more than German children who had a similar diet.

(36)

Researchers have discovered that the symptoms of celiac disease

- 1** have become more severe because of increases in the quantity of wheat that people regularly consume.
- 2** occur to some degree in the majority of people whose ancestors came from European countries.
- 3** can actually lead to increased absorption of nutrients in around 1 percent of people with the condition.
- 4** occur in only a small percentage of the people whose genes put them at risk for the condition.

(37)

What do the researchers who studied children in neighboring Russian and Finnish towns believe?

- 1** The Russian children were more likely to have celiac disease because of the high amount of bread in their diet.
- 2** The symptoms of celiac disease were more severe in the Finnish children because they ate a certain type of wheat.
- 3** The Russian children's living circumstances were responsible for their lower rates of celiac disease.
- 4** The Finnish children got sicker because they were exposed to bacteria known to cause allergic reactions.

Oxford and Cambridge

Between the fourteenth and nineteenth centuries, more than 100 universities were founded or reestablished on the European continent. In England, however, only two universities, Oxford and Cambridge, existed until the 1820s. This was because of the “Stamford Oath,” enacted in 1334 by King Edward III, which made all graduates of Oxford and Cambridge swear they would not pass on the knowledge they had acquired to students outside of the two existing institutions. The oath was mandatory and strictly enforced. In 1686, for example, Oxford graduate Charles Morton faced criminal charges for establishing an independent academy in London. After repeated arrests, he eventually immigrated to North America, where he became president of Harvard College.

The Stamford Oath allowed Oxford and Cambridge to maintain a monopoly over higher education in England for centuries. To enforce the oath, they needed the support of the government, which was closely tied to the nation’s religious establishment. Both the government and the country’s official church happily cooperated, as the monopoly allowed them to quickly and efficiently identify and put an end to movements that threatened their authority. The fourteenth-century Lollard movement that emerged among intellectuals at Oxford, for example, criticized things such as the tax-exempt status of the church and called for reforms. In response, the government and the church united to suppress the protesters until the movement was driven underground. Furthermore, at Cambridge in 1570, students rebelled against laws put in place by Queen Elizabeth I which forced the university to ban ideas that went against the church’s teachings. Three students involved in this rebellion were the early leaders of the Puritan religious movement, and they faced persecution by English authorities until they immigrated to North America.

In the early nineteenth century, the government and church underwent a period of crisis that damaged their cooperation and authority. Taking advantage of this, intellectuals began questioning the unique status of Oxford and Cambridge and, in 1827, succeeded in their efforts to end the Stamford Oath. Around that same time, London University began enrolling students. A radical experiment, the school was established with neither funding nor consent from the government or the church, and it was made clear that religious faith was not an admission requirement. Though this led both the government and the church to speak out against the new institution’s establishment, they were unwilling or unable to involve themselves in actively attempting to close down the new university.

By the end of the nineteenth century, instead of opposing new English institutions, Oxford and Cambridge had become involved in creating them. For instance, Benjamin Jowett, an Oxford teacher, was a strong advocate for founding a new university in Bristol, and funds were raised at Oxford for this purpose. Jowett’s support for Bristol was part of a plan whereby Oxford would broaden its reach through the establishment of new institutions. These would loyally educate students in line with Oxford’s principles, and their most capable graduates would be brought to Oxford. As it turned out, however, the new universities remained wholly independent, eventually lessening the longstanding influence of Oxford and Cambridge in English public life.

(38)

What was true of England between the fourteenth and nineteenth centuries?

- 1** Universities on the European continent were considered so superior to English ones that there was little demand for new universities in England.
- 2** England had far fewer universities than the rest of Europe because graduates were prohibited from teaching at new educational institutions.
- 3** The reputations of England's two universities were so well established that other universities in Europe were unable to compete with them.
- 4** Charles Morton's establishment of an educational institution in London had a significant effect on the way the public viewed education.

(39)

The government and church in England united in support of Oxford and Cambridge to

- 1** ensure that attacks on the Lollard and Puritan movements did not spread outside the universities.
- 2** enable intellectual movements in England to compete with those occurring in continental Europe.
- 3** put a stop to the crisis that had resulted from the universities having to pay more taxes than other institutions.
- 4** make it easier to prevent the rise of groups of intellectuals who challenged the accepted political or religious order.

(40)

In the third paragraph, what do we learn about London University?

- 1** Students there encouraged students at other universities to oppose the "Stamford Oath" by ignoring attempts to legally enforce it.
- 2** It was established by people whose ultimate goal was to become a part of either Oxford or Cambridge.
- 3** The government approved its establishment in order to show its willingness to make changes and therefore gain popularity with the public.
- 4** It was established without the permission of the ruling powers in England and was criticized by them because of this.

(41)

What was Benjamin Jowett's idea for the English higher-education system?

- 1** He wanted to end Oxford's rivalry with Cambridge in order to improve the overall quality of education in England.
- 2** He believed connections with a group of new institutions could expand his university's influence throughout England.
- 3** He wanted to decrease universities' association with the government by ensuring each one could become financially independent.
- 4** He believed that Oxford's courses needed to be brought more in line with the university's original educational standards.

4

English Composition

- Write an essay on the given TOPIC.
- Use TWO of the POINTS below to support your answer.
- Structure: introduction, main body, and conclusion
- Suggested length: 120–150 words
- Write your essay in the space provided on Side B of your answer sheet.
Any writing outside the space will not be graded.

TOPIC

Do you think that Japanese consumers will buy more imported products in the future?

POINTS

- *Globalization*
- *Government policies*
- *Price*
- *Quality*

MEMO

Listening Test

There are three parts to this listening test.

Part 1	Dialogues: 1 question each	Multiple-choice
Part 2	Passages: 2 questions each	Multiple-choice
Part 3	Real-Life: 1 question each	Multiple-choice

※ Listen carefully to the instructions.

Part 1

- No. 1**
- 1** To invite her to go running.
 - 2** To tell her the party is canceled.
 - 3** Because she quit the rowing team.
 - 4** Because he heard she had the flu.
- No. 2**
- 1** The garden will be worth the effort.
 - 2** They should have hired someone.
 - 3** The flower garden will be hard to design.
 - 4** They still have a lot more digging to do.
- No. 3**
- 1** They moved without telling her.
 - 2** Mike told her that they are both sick.
 - 3** They did not go to Mike's Christmas party.
 - 4** They have not been in touch recently.
- No. 4**
- 1** He will have little free time.
 - 2** He will have to find a roommate.
 - 3** He will need a part-time job.
 - 4** He will live with Mary's cousin.

- No. 5**
- 1** Simplify the remodeling plans.
 - 2** Pay extra for the work.
 - 3** Hold the reception elsewhere.
 - 4** Postpone the wedding party.
- No. 6**
- 1** She is a difficult customer.
 - 2** She is too aggressive.
 - 3** She is popular with the staff.
 - 4** She is not polite to the customers.
- No. 7**
- 1** Start practicing for his speech.
 - 2** Calculate how long the presentation will take.
 - 3** Finish preparing the materials for their talk.
 - 4** Present the budget proposal.
- No. 8**
- 1** Confirm the couple's reservation.
 - 2** Cancel the couple's reservation.
 - 3** Ask the headwaiter for a better table.
 - 4** Offer money to the headwaiter.

Listening Test

- No. 9**
- 1** The store would not give him a replacement camera.
 - 2** The manufacturer did not repair his camera properly.
 - 3** The store did not have the same camera in stock.
 - 4** The warranty on his camera did not cover the repairs.
- No. 10**
- 1** His policy has already expired.
 - 2** He will have to pay more to keep the same policy.
 - 3** His policy has been renewed by his company.
 - 4** He should ask his company for a cheaper option.
- No. 11**
- 1** The Beijing post office will be closed on Monday.
 - 2** The delivery fee is too high.
 - 3** The letter will not arrive on time.
 - 4** The website's information is incorrect.
- No. 12**
- 1** Gradually replace their light bulbs.
 - 2** Wait for further price reductions.
 - 3** Cut electricity costs another way.
 - 4** Shop online for LED bulbs.

Part 2

(A) No. 13

- 1 Students can actually teach each other well.
- 2 Teaching ability affects student performance.
- 3 Charisma is more important than teaching experience.
- 4 Teachers are satisfied with their salaries.

No. 14

- 1 Sending them on overseas training programs.
- 2 Giving them plenty of in-class practice.
- 3 Having them study in graduate programs.
- 4 Getting them evaluated by their students.

(B) No. 15

- 1 Few runners complete the race.
- 2 It now takes place in many states.
- 3 Runners must compete in teams.
- 4 It was designed to keep prisoners fit.

No. 16

- 1 By making runners collect pages from books.
- 2 By asking volunteers to monitor runners.
- 3 By having runners report on each other.
- 4 By changing the route regularly.

Listening Test

(C) **No. 17**

- 1** Find ways to get feedback from the public.
- 2** Modify the content of existing shows.
- 3** Predict which shows audiences would like.
- 4** Hire people to perform in new shows.

No. 18

- 1** Executives listen carefully to audiences' opinions.
- 2** Executives are strongly influenced by creators' opinions.
- 3** Audiences' tastes change regularly.
- 4** Creators are better at judging the ideas of others.

(D) **No. 19**

- 1** It had little impact on Sri Lanka.
- 2** It badly affects arabica coffee.
- 3** It has recently begun to affect other plants.
- 4** It was first discovered in Colombia.

No. 20

- 1** They were difficult to grow.
- 2** They were expensive to produce.
- 3** Their taste and smell were not good enough.
- 4** Their resistance did not last.

- (E)** **No. 21**
- 1** By changing the appearance of their products.
 - 2** By selling the same products to adults and children.
 - 3** By frequently changing their products' names.
 - 4** By reducing the price of their products.

- No. 22**
- 1** They come in more color choices.
 - 2** They are made with lower-quality materials.
 - 3** They help female skiers compete with men.
 - 4** They are not popular among high-level female skiers.

-
- (F)** **No. 23**
- 1** He found a way to grow penicillin on fruit.
 - 2** He tested penicillin on human patients.
 - 3** He recommended using penicillin for cleaning.
 - 4** He sold equipment for producing penicillin.

- No. 24**
- 1** Penicillin was produced in large amounts.
 - 2** People understood the dangers of bacteria.
 - 3** A new kind of disease was cured.
 - 4** Other antibiotic drugs were developed.

Listening Test

Part 3

(G) No. 25

Situation: You are applying for a university teaching position. You have only published one article. The interviewer gives you the following advice.

Question: What should you do first?

- 1** Make a small change to your résumé.
- 2** Request to meet with the head of the department.
- 3** Provide a copy of your unfinished article.
- 4** Contact the textbook publisher.

(H) No. 26

Situation: You must fly to Dublin, Ireland, urgently and return to Los Angeles by July 22. You can only spend \$2,000. A travel agent tells you the following.

Question: Which option should you choose?

- 1** The direct flight with Cloverleaf Airways.
- 2** The EuroAm flight with a connection in London.
- 3** The direct flight with AirDream.
- 4** The Blue Stream and Sungate flights.

(I) No. 27 *Situation:* You bought a coat eight days ago. Today, the same store is advertising it for a lower price online. You call the store to ask about a refund of the difference.

Question: What should you do next?

- 1** Wait to be called back.
 - 2** Go to the store this afternoon.
 - 3** Speak directly to the manager.
 - 4** Apply for a credit card.
-

(J) No. 28 *Situation:* You are talking to a salesperson about trading in your car for another one. You can afford \$300 in monthly payments but do not want to make a down payment.

Question: Which vehicle should you choose?

- 1** The hybrid sedan.
 - 2** The SUV.
 - 3** The minivan.
 - 4** The station wagon.
-

(K) No. 29 *Situation:* You are an international student in your first semester of college. A curriculum coordinator is explaining the English requirements. Your placement-test score was 74.

Question: Which English class should you register for now?

- 1** English I.
- 2** English II.
- 3** English Plus.
- 4** English Academic.

■一次試験の結果について■

1) 英検ウェブサイトでの解答速報 (<http://www.eiken.or.jp>) 6月3日 13:00以降

2) 結果通知方法

◆個人申込みの場合

一次個人成績表に可否結果を記載して、6月25日までに送付します（合格の場合は、一次個人成績表の右上部分が二次受験票になります）。未着の場合は6月25日以降に英検サービスセンター03(3266)8311（平日9:30～17:00）までお問い合わせください（お問い合わせの際には個人番号もお知らせください）。

◆団体申込みの場合

一次個人成績表は6月25日までに申込責任者あてに送付します（個人あてには送付しません）。

6月26日までに二次受験票を受け取っていない場合は、申込責任者へお問い合わせください。

■二次試験について（一次試験合格者のみ）■ ※試験日程は必ずご自身で事前にご確認ください。

1) 試験日 A日程：6月30日（日） B日程：7月7日（日）

- ・二次試験の受験日は、A日程・B日程のうち、申込方法・希望受験地等に基づき協会が指定します。試験日・受験会場・集合時間は二次受験票（一次個人成績表の右上部分）で通知します。これを切り離して受験会場にお持ちください。
- ・いかなる場合も二次受験票で指定された試験日・受験会場・集合時間での受験となり、変更はできません。
- ・日程区分については、英検ウェブサイトの【二次試験のA／B日程の区分けについて】をご確認ください。
- ・ダブル受験（隣接した2つの級を一緒に受験）の場合、それぞれの級について二次受験票に記載の日程での受験となり、級により異なる日程での受験となる場合があります。
- ・年齢は申込時に申請した生年月日に基づいて算出します（一次試験の答案に異なる生年月日を記入されても反映されません）。
- ・申込情報に不備がある場合、協会が指定した日時での受験となり、【二次試験のA／B日程の区分けについて】のとおり日程とならない場合があります。
- ・一部特別会場（海外・離島等）、障がい者特別措置にて二次試験を受験する場合についてはA日程とします。

2) 受験地（希望の受験地を選べます）

- ・下記の二次試験受験地番号表をみて、希望の受験地番号を解答用紙（準会場で受験している場合は志願票）の所定欄に記入・マークしてください。

■二次試験受験地番号表■ ※横浜・東京・大阪は下記、島部・海外は右記参照 ※受験地は周辺エリアを含む
