Grade

Pre-1

実用英語技能検定

主催：公益財団法人 日本英語検定協会

後援：文部科学省

準 1 級

2016 年 6 月 12 日(日) 実施

■ 試験時間

筆記試験（90分）

リスニングテスト（約29分）

■ 注意事項

1. 試験開始まで、この問題冊子を開いてはいけません。
2. 解答は、解答用紙（マークシート）に記入してください。
筆記 ・リスニングの解答欄は解答用紙のA面（表面）、筆記 の解答欄は、解答用紙のB面（裏面）にあります。解答用紙以外に記入した解答は、すべて無効となります。問題冊子にはメモをしてもかまいませんが、後で解答用紙に解答を書き写す時間はありません。
3. 問題内容に関する質問は一切受けつけません。
4. 不正行為をした場合は、答案は無効となります。
5. 他の受験者に迷惑をかける行為を禁じます。
6. リスニングテストの準備時間、およびリスニングテスト中に教室外へ出た場合は、その後教室に戻りテストを受けることはできません。
7. 携帯電話などは必ず電源を切って机の上に置き、絶対に使用しないでください。
8. 電子機器（ウェアラブル端末を含む）の使用を禁じます。
9. 携帯電話などの着信音・バイブ音、その他試験を妨げる音を発生させた場合は、失格とすることがあります。
10. 試験終了後、問題冊子は持ち帰ってください。
11. 採点結果等については、一切異議申し立てはできません。
12. この試験問題の複製（コピー）を禁じます。また、この試験問題の一部または全部を協会の許可なく他に伝えたり、漏えい（インターネット上に掲載することを含みます）することを禁じます。

1

To complete each item, choose the best word or phrase from among the four choices. Then, on your answer sheet, find the number of the question and mark your answer.

- (1) Many analysts say the country is close to civil war. They believe the military will try to () the current government and rule until an election can be held.
1 overrate **2** outsource **3** overthrow **4** outline
- (2) After a week away from home, Erica returned to find that the tomato plants in her garden had () and died because it had been so hot and dry.
1 withered **2** shrugged **3** growled **4** steered
- (3) **A:** Roger, please accept this watch as a small () of appreciation for your many years of service to our organization.
B: Thank you, Mr. Cruz. That means a lot to me.
1 span **2** sphere **3** token **4** curb
- (4) Ms. Klein's love of history is (). Thanks to her lessons, her students enjoy studying history, and many of them now read history books in their free time.
1 inanimate **2** infectious **3** crooked **4** prompt
- (5) Based on their calculations, the scientists were able to () that the asteroid traveling through space would miss Earth by over 100,000 kilometers.
1 wreck **2** forsake **3** prevail **4** ascertain
- (6) The police rushed to Green Park after receiving a report of a () there. Upon arriving, they found members of two rival gangs fighting.
1 disturbance **2** consequence **3** deduction **4** commencement
- (7) During the war, the journalist was kidnapped by rebels and held () in a tiny cell for six months.
1 massive **2** earnest **3** assured **4** captive
- (8) Doctors had to perform an () on the famous actor to determine whether he had died of natural causes or from a drug overdose.
1 extension **2** autopsy **3** adoption **4** itinerary
- (9) The politician was not () when questioned about his involvement in the scandal. He said he had no comment regarding the matter.
1 upcoming **2** forthcoming **3** spacious **4** peculiar

- (10) *A:* Can you give me a () for renting a compact car from May 1 to May 3?
B: Yes, ma'am. Our compact cars are \$40 per day, so it would be \$120.
1 preference **2** quote **3** discourse **4** circuit
- (11) The man's () to set a speed record for crossing the Atlantic Ocean failed when his yacht was badly damaged in severe weather.
1 flap **2** dock **3** scratch **4** bid
- (12) Rachel wants to go to India, but first she needs to () her parents to let her travel alone.
1 conceal **2** convince **3** contemplate **4** conclude
- (13) A () who is found guilty of a very serious crime can sometimes receive the same punishment as an adult.
1 refugee **2** tenant **3** minor **4** bachelor
- (14) *A:* Tony, what a ()! I didn't know you were a member of this gym.
B: I just joined, Sally. I had no idea you were a member, either.
1 testimony **2** coincidence **3** glossary **4** compound
- (15) Albert was shocked to find he had been driving with an () license. He then remembered he had gotten a reminder notice but had forgotten to get his license renewed.
1 invalid **2** offensive **3** unstable **4** enclosed
- (16) Owing to the recent water shortage, the local government has limited the amount of water that farmers can take from the Eastland River to () their crops.
1 disconnect **2** irrigate **3** bypass **4** counter
- (17) The police () the suspected criminal's house in the early hours of the morning. They found large amounts of illegal drugs and weapons.
1 depicted **2** disguised **3** nourished **4** raided
- (18) In order to meet the deadline, the office workers took a () lunch at their desks and then continued with their work.
1 hasty **2** striking **3** tragic **4** towering

- (19) At first, Janet was () to go to the Chopin concert with her friend Stuart because she is not a classical music fan. However, she enjoyed it very much.
1 superior 2 fragile 3 reluctant 4 intact
- (20) In a globalized world, major corporations need to () business relationships with companies in other countries. Such ties are important for businesses to survive.
1 harass 2 restrain 3 forge 4 sweep
- (21) Shelly's boss offered her a promotion, but it was () on her transferring to another city. She did not want to move, so she refused the offer.
1 tender 2 conditional 3 sturdy 4 imperfect
- (22) Marco was interested in cars and knew a lot about them, so when his car suddenly stopped running, he was able to () his knowledge of engines and fix it.
1 hold out 2 pull through 3 draw on 4 mark down
- (23) Joseph's grandmother is 90 years old. Since it is hard for her to () by herself, Joseph often takes her to the supermarket and other places.
1 touch up 2 wash down 3 dream up 4 get around
- (24) When her family was deciding where to go on vacation, Elena was () a week at the beach, but everyone else wanted to go hiking in the mountains.
1 pushing for 2 letting down 3 giving off 4 driving up
- (25) The city government decided to () the old city hall building and build a modern government center in the same place.
1 pull back 2 shake up 3 send for 4 tear down

Read each passage and choose the best word or phrase from among the four choices for each blank. Then, on your answer sheet, find the number of the question and mark your answer.

Raising the Minimum Wage

In November 2014, San Francisco voters approved a proposal to raise the city's minimum wage from \$11.05 to \$15 per hour. While many workers are celebrating, the plan has critics, too. Higher wages, they say, mean businesses will not be able to hire as many workers, and the rise in labor costs may also make it harder for businesses to survive.

Supporters of a higher minimum wage, however, say this will not be a problem because the (26). To support their argument, they point to the fact that San Francisco is making sure businesses can adjust to the changes without cutting staff—its plan involves raising the minimum wage by just a dollar or so per year over the course of four years. As the minimum wage rises, employees will have more money to spend on things like shopping and eating out, causing businesses' incomes to rise as well. This should (27). In fact, studies by economists have shown that areas with higher minimum wages tend to experience greater economic growth than those with lower pay rates.

Many economists also believe businesses will become more efficient if the minimum wage is raised, as people who receive very low wages have less motivation to perform well. (28), raising the national minimum wage to \$15 would encourage employees to stay with their employer longer, so businesses would not have to waste time and money constantly advertising for and training new staff. According to some estimates, this would save US businesses \$2.1 billion a year.

- | | | |
|------|-----------------------------------|-------------------------------------|
| (26) | 1 increase will be gradual | 2 law is often ignored |
| | 3 city will give businesses money | 4 economy has improved so much |
| (27) | 1 prove the raise was unnecessary | 2 make up for increased labor costs |
| | 3 cause problems for the economy | 4 force people to obey the law |
| (28) | 1 Moreover | 2 In spite of this |
| | 3 Otherwise | 4 Compared to this |

The Serpentine Columbine

The plant known as the serpentine columbine is covered with small hairs, called trichomes, which have sticky tips. Insects that land on the hairs get stuck and eventually die of starvation. For many years, the serpentine columbine was a mystery because no one could figure out (**29**). Unlike carnivorous plants, the serpentine columbine does not obtain nutrition from the prey it catches—the insects simply remain on its surface.

The puzzle seems to have been solved by Eric LoPresti of the University of California, Davis. His research showed the serpentine columbine is (**30**). A caterpillar called *Heliothis phloxiphaga* eats serpentine columbine leaves and is not trapped by the trichomes. LoPresti found that the leaves were twice as likely to be eaten by the caterpillars if the trapped bugs were removed from the plant. He believes the dead insects attract predators such as spiders, which then eat the caterpillars.

Since some carnivorous plants use chemical signals to attract prey, LoPresti wondered whether this was also the case with the serpentine columbine. He prepared one set of containers filled with the stems and leaves of serpentine columbines, and another set of containers that were empty. All the containers were covered with a sticky material that hid the contents and would also trap any insects that visited them. After collecting the containers, LoPresti found that those containing pieces of the plant were 21 percent more likely to contain insects. (**31**), it seems that chemicals work together with the trichomes to trap the bugs.

-
- (29) **1** how the sticky tips are produced
 2 why the plant kills insects
 3 how insects avoid it
 4 what the trichomes are made of
- (30) **1** giving a warning to other plants **2** providing food for other plants
 3 spreading its seeds **4** trying to defend itself
- (31) **1** For instance **2** In addition to this
 3 Therefore **4** Contrary to this

Read each passage and choose the best answer from among the four choices for each question. Then, on your answer sheet, find the number of the question and mark your answer.

A Look at Art Theft

Every year, artworks worldwide are lost to theft. Although government agencies exist to combat these crimes, most stolen artworks are never recovered. High-profile museum thefts, which are usually very carefully planned and carried out, are thought to be mostly committed by organized-crime groups. As these thefts often involve masterpieces that are too famous to be sold on the open market, the criminals must trade them for items such as illegal drugs or weapons, which can then be sold for cash. In other cases, the thefts are more like kidnappings, where the thieves demand money from the artworks' owners in exchange for their safe return.

One challenge for museum administrators is finding a balance between protecting artworks on display and making art accessible to the public. "When institutions don't provide an intimate, nose-to-the-canvas environment, visitors complain," says Ulrich Boser, a journalist who has written about a number of art thefts. When the Munch Museum in Norway strengthened security after a robbery in 2004, many art lovers and critics said the new measures, which included metal detectors and glass barriers, had ruined the experience of visiting the museum.

Although thefts from exhibition halls receive the most media coverage, the majority of thefts involve small antique items that are kept in storage. Hundreds of these are stolen every year, most often by researchers or staff who have access to the storerooms, and so the fact that they are missing tends to go unnoticed until discovered indirectly, if at all. At the Historical Society of Pennsylvania in the United States, for example, when the list of items in storage was being computerized, it was revealed by chance that the nighttime janitor had stolen at least 200 antique weapons from the storerooms and sold them to a local collector. Not one of the items, collectively worth over \$2 million, had been identified as missing over the course of the decade in which they were taken.

(32)

What is true of high-profile museum thefts?

- 1 They became less common when art owners began refusing to pay money for the return of their stolen paintings.
- 2 Little-known pieces by famous artists are usually stolen, as well-known works are too hard to sell on the open market.
- 3 The thieves are forced to find ways to obtain cash in exchange for the artworks that do not involve selling them directly.
- 4 Police usually recover the artworks when the thieves attempt to exchange them for illegal drugs and weapons.

(33)

What is one problem with installing security measures at museums?

- 1 Museum visitors become upset if they feel that their access to the artworks on display is being limited.
- 2 Fewer people visit the museums because the public is reminded that museums can be targets for criminals.
- 3 Improvements in the equipment used by thieves have made it harder for security systems to detect them.
- 4 Some kinds of technology used in security systems can cause damage to the artworks they are supposed to protect.

(34)

The example of the Historical Society of Pennsylvania supports the point that

- 1 museum employees often hesitate to report missing items out of fear that they will be accused of stealing.
- 2 statistics on theft vary depending on the type of museum and the importance of its collections.
- 3 museums change exhibits so regularly that it is difficult for workers to keep track of smaller works of art.
- 4 thefts often go undiscovered as they are usually committed by people who work at the institutions that own the pieces.

Title IX

Title IX, a 1972 law designed to eliminate gender discrimination in education, states that any US educational institution that receives government funding must provide equal opportunities to female students. Early on, enforcement focused almost entirely on academic concerns, such as ensuring that female students had the same access to math and science programs that male students did. An unintended consequence of the law, however, was its huge impact on women's athletics. The number of female high school athletes rose from fewer than 300,000 before the law to more than 3.2 million in 2012, and schools now provide much greater funding for female sports teams.

Around the time that Title IX was passed, public awareness of discrimination against female athletes was growing. Events like the famous Battle of the Sexes in 1973, in which female tennis champion Billie Jean King defeated a retired male champion named Bobby Riggs, brought greater attention to the issue. Public interest in the match was high, both because of King's skill and because Riggs had made sexist comments such as, "I want to prove that women . . . don't belong on the same court as a man." Changing attitudes about the role of women in sports, coupled with lawsuits against schools that failed to provide female athletes with adequate training facilities, meant US lawmakers began applying Title IX to athletics. This included the creation of rules forcing schools to provide equal opportunities for females to play sports and also provide them with the same facilities and equipment males receive.

Some male athletes complain that Title IX has robbed them of opportunities, however. While schools have been forced to provide more support to female athletes, their overall budgets often have not expanded enough to accommodate the increase. At the college level in particular, funding for less popular men's sports such as wrestling has been cut to make more money available for women's sports teams.

Supporters of Title IX argue that overall, though, the law has had enormous benefits that extend far beyond the positive health effects of playing sports. Researcher Betsey Stevenson performed an analysis comparing states with varying degrees of female athletic participation. She found that in states where females had more chances to participate in sports, women's education levels and likelihood of finding employment were also higher. In fact, Stevenson's research indicates that Title IX was responsible for about 40 percent of the increase in employment among women aged 25–34 from 1980 to 2000. If true, this means the law has contributed significantly to helping women achieve equality with men.

(35)

When Title IX was passed in 1972,

- 1** the public was opposed to the government giving funding to schools to promote women's athletics.
- 2** there was widespread concern that its focus on sports would lower the quality of math and science programs.
- 3** its main goal was to ensure that females and males were given the same chances in the classroom.
- 4** most schools were opposed to it because they did not want to have their budgets for athletics cut.

(36)

What is true of the Battle of the Sexes?

- 1** It was a legal battle between schools and the US government that led to more opportunities for female athletes.
- 2** It contributed to a national trend that led the US government to change its interpretation of Title IX.
- 3** It made people acknowledge that if a woman could defeat a man in a sporting event, women could also excel in academics.
- 4** It demonstrated that the lack of adequate training facilities had been having a negative effect on female athletes' abilities.

(37)

Research by Betsey Stevenson indicates that Title IX has

- 1** led a number of states to consider passing a law that guarantees women the right to play on men's sports teams.
- 2** helped women remain healthy long after they have graduated from high school or college.
- 3** improved overall education levels, even in certain states where access to athletics is still limited.
- 4** had a major impact on society because it has helped a large number of women find jobs.

Surgery for Obese Children

Childhood obesity has reached epidemic levels worldwide. Obese children, who have an extremely high percentage of body fat, face severe health risks. In particular, they are at risk of developing a disease called type 2 diabetes, which raises blood sugar levels. This condition was almost never seen in children until obesity became widespread, and it appears to progress particularly quickly in them. It can result in kidney and liver problems, and can harm eyesight and lead to poor blood circulation, sometimes even necessitating the surgical removal of body parts. According to a study in the *New England Journal of Medicine*, people who are obese as adolescents are twice as likely to die before age 55 of conditions like diabetes and heart disease. To address the problem, doctors are increasingly turning to bariatric surgery, a procedure that involves removing or tying off part of the stomach to limit the amount of food it can hold and reduce patients' appetites.

To evaluate the surgery's effectiveness, Dr. Paul O'Brien, a professor of surgery at Monash University in Australia, conducted a study involving 50 extremely obese adolescents who had been unable to lose weight despite repeated efforts to do so. They were randomly divided into two groups. One group underwent bariatric surgery, and the other was placed in a program that helped them lose weight through diet, exercise, and fitness counseling. Those in the surgery group had part of their stomach tied off with a silicone band. After leaving the hospital, they were put on strict diets and required to follow exercise programs. Two years later, just 3 of the adolescents in the lifestyle-change group had reduced their weight by 25 percent or more, whereas 21 of the adolescents in the surgery group had.

A critic of bariatric surgery, Dr. Edward Livingston, points out, however, that for almost a third of the adolescents in the study who underwent the operation, surgeons had to perform a second procedure to adjust the silicone band. Since it is a human-made device that will potentially remain in the body for life, says Livingston, there are long-term risks to the patient if something goes wrong. Further, he argues that though their weight loss was less extreme, adolescents in the lifestyle-change group showed improvement in terms of blood pressure and other important health indicators, without the possibility of harm the surgery group faced.

Despite these concerns, many doctors say bariatric surgery should be encouraged for severely overweight children. Dr. David Haslam of Luton and Dunstable University Hospital in England argues that "radical measures are necessary if we are to start saving lives." Haslam notes that surgery can increase a patient's lifespan by decades. Dr. David Katz, director of the Yale-Griffin Prevention Research Center in the United States, accepts that there is an obesity crisis, but is concerned about using surgery to combat type 2 diabetes. He believes this could lessen societal efforts aimed at encouraging healthy diets and exercise programs, which reduce the risk of developing the illness in the first place. Katz maintains that "relying on operating rooms may obscure the opportunity to use lifestyle as our medicine."

(38)

The *New England Journal of Medicine* study suggests that

- 1 type 2 diabetes in children may be caused by kidney and liver problems rather than by having a high percentage of body fat.
- 2 obese adolescents who undergo surgery instead of a diet and exercise program are more likely to die young.
- 3 the symptoms of type 2 diabetes are less serious in children than they are in adults who develop the disease.
- 4 early death from certain medical conditions is linked to being severely overweight as an adolescent.

(39)

What did the results of Dr. Paul O'Brien's experiment indicate?

- 1 Adolescents who have been unsuccessful in losing weight in the past generally have poor results with bariatric surgery.
- 2 Adolescents who have bariatric surgery tend to show significantly reduced fitness levels after the operation.
- 3 Bariatric surgery is more effective than only making lifestyle changes for adolescents who are attempting to lose weight.
- 4 Bariatric surgery can successfully reduce appetite in adolescents, but patients tend to start gaining weight again after two years.

(40)

What is one thing Dr. Edward Livingston says regarding O'Brien's study?

- 1 Further surgeries actually did little to increase patients' chances of losing a significant amount of weight.
- 2 Because the silicone bands are not designed to be long-lasting, it is no surprise that patients needed more than one operation.
- 3 The surgery did not improve important health indicators as much as had been originally predicted.
- 4 Those in the lifestyle-change group were able to improve certain aspects of their health without the dangers of surgery.

(41)

What is Dr. David Katz's main concern?

- 1 Using surgery to treat type 2 diabetes might discourage people from making lifestyle choices that could prevent the disease.
- 2 Referring to the increase in type 2 diabetes cases as a crisis could negatively affect the mind-set of people who suffer from it.
- 3 Surgery has been proven to be less effective in treating obesity-related diseases than Dr. David Haslam claims it is.
- 4 Encouraging surgery to treat weight loss could lead to shortages of operating rooms for patients with medical emergencies.

4

English Composition

- Write an essay on the given TOPIC.
- Use TWO of the POINTS below to support your answer.
- Structure: introduction, main body, and conclusion
- Suggested length: 120–150 words
- Write your essay in the space provided on Side B of your answer sheet.
Any writing outside the space will not be graded.

TOPIC

Agree or disagree: The number of young people who live with their parents after they finish their education will increase in the future

POINTS

- *Convenience*
- *Cost of living*
- *Personal freedom*
- *Safety*

MEMO

Listening Test

There are three parts to this listening test.

Part 1	Dialogues: 1 question each	Multiple-choice
Part 2	Passages: 2 questions each	Multiple-choice
Part 3	Real-Life: 1 question each	Multiple-choice

※ Listen carefully to the instructions.

Part 1

- No. 1**
- 1** Traveling by road is too tiring.
 - 2** People should not travel with pets.
 - 3** Riding on trains is fun for children.
 - 4** The man should stay home this year.
- No. 2**
- 1** She is too advanced to take the class.
 - 2** She is worried she is not fit for the class.
 - 3** She has no interest in taking the class.
 - 4** She has taken a similar class before.
- No. 3**
- 1** Take a document to the office.
 - 2** Play golf with Jack.
 - 3** Visit the company's factory.
 - 4** Sign the contract for Jack.
- No. 4**
- 1** Drop his psychology class.
 - 2** Transfer to another university.
 - 3** Retake a chemistry test.
 - 4** Change his major.

- No. 5**
- 1** Help tidy up the garage.
 - 2** Paint the garage.
 - 3** Consider buying a smaller car.
 - 4** Assist with today's sale.
- No. 6**
- 1** Buy a gift certificate.
 - 2** Get a cash refund.
 - 3** Receive credit at the store.
 - 4** Have the coffee maker repaired.
- No. 7**
- 1** Delay the meeting.
 - 2** Check with Renée about the changes.
 - 3** Attend the meeting this afternoon.
 - 4** Correct the errors.
- No. 8**
- 1** Everyone needs their own equipment.
 - 2** It is hard to stop once you start.
 - 3** He is thinking about doing it professionally.
 - 4** He attends class every Saturday.

- No. 9**
- 1** Pay someone to care for the garden.
 - 2** Cancel her order for vegetables.
 - 3** Get a part-time job on a farm.
 - 4** Join a community farm.
- No. 10**
- 1** Observe the cat for a day.
 - 2** Allow the cat to go outdoors.
 - 3** Give the cat some medication.
 - 4** Take the cat to the veterinarian now.
- No. 11**
- 1** Reserve the new basketball court.
 - 2** Ask Mike to record the basketball game.
 - 3** Play basketball at the fitness center.
 - 4** Watch a basketball game on TV.
- No. 12**
- 1** Overnight delivery is too expensive.
 - 2** The post office will close earlier than usual.
 - 3** She forgot to bring her wallet.
 - 4** The package will not arrive in time.

Listening Test

Part 2

(A) **No. 13**

- 1** Thieves used it to hide stolen goods.
- 2** People did not live there permanently.
- 3** It used to be the capital of Cappadocia.
- 4** Climate change forced people to leave.

No. 14

- 1** Local people found it while digging a well.
- 2** A local man found it while fixing his home.
- 3** It was found during the construction of a tunnel.
- 4** Archaeologists found it on an old map.

(B) **No. 15**

- 1** In classes that teachers do not enjoy teaching.
- 2** When rewarding students for good test results.
- 3** In classes that students find challenging.
- 4** Once teachers have their students' respect.

No. 16

- 1** They think it may lead to bad behavior.
- 2** They have offended students with jokes in the past.
- 3** They think their jokes will not be funny.
- 4** They believe parents disapprove of its use.

- (C)** **No. 17** **1** It was designed by an American president.
 2 It was never finished as originally planned.
 3 It was created by an amateur sculptor.
 4 It was not popular with tourists at first.
- No. 18** **1** It was built on their land illegally.
 2 Officials have made ticket prices too expensive.
 3 It should now be given special protection.
 4 They paid too much money for it.
-

- (D)** **No. 19** **1** It is being used by many companies.
 2 It uses environmentally friendly engines.
 3 It is especially safe in bad weather.
 4 It can carry more cargo than a helicopter.
- No. 20** **1** Observe the activities of enemies.
 2 Carry tourists on long trips.
 3 Take medical aid to disaster areas.
 4 Improve trade in remote areas.

- (E)** **No. 21** **1** They helped popularize a new religion in the US.
2 They brought cultural events to rural areas.
3 They helped people in rural areas earn extra money.
4 They encouraged people to move to cities.

- No. 22** **1** They became the subject of several movies.
2 Many were bought by large corporations.
3 Community leaders banned them from their towns.
4 The spread of technology caused their decline.
-

- (F)** **No. 23** **1** They are producing fewer eggs.
2 They are overconsuming some fish species.
3 They are breeding with other seabird species.
4 They are being killed by hunters.

- No. 24** **1** Global warming has benefited some sea creatures.
2 Sand eels are being overfished.
3 Fertilizers are polluting the ocean.
4 The size of adult kittiwakes has increased.

Listening Test

Part 3

(G) No. 25 **Situation:** Someone has accessed your personal bank account online and transferred some money out of it. You call your bank's hotline and hear the following.

Question: What should you do?

- 1** Press 1.
- 2** Press 2.
- 3** Press 3.
- 4** Press 4.

(H) No. 26 **Situation:** You live in a city and want to cycle the five kilometers to your office every day. Your budget for a bicycle is \$800. A store salesperson tells you the following.

Question: Which model should you buy?

- 1** The Dasher Elite.
- 2** The Podium 3.
- 3** The Soho Deluxe.
- 4** The Redford Tourer.

- (I) No. 27** **Situation:** You are on a cruise ship. You are in a standard room located on the lower deck. You hear an alarm and the following announcement.
- Question:** Where should you go?
- 1** To the front of the lower deck.
 - 2** To the back of the lower deck.
 - 3** To the front of the upper deck.
 - 4** To the back of the upper deck.
-

- (J) No. 28** **Situation:** A gym employee is talking to you about lessons. You can only go between 6 p.m. and 8 p.m. on Tuesdays and Thursdays. You want to exercise with a group.
- Question:** Which lesson should you join?
- 1** Shallow-water running.
 - 2** Kickboxing fitness.
 - 3** Step aerobics.
 - 4** Latin dance.
-

- (K) No. 29** **Situation:** You arrive home at 9 p.m. on Saturday and listen to the following voice mail. You are going out of town tomorrow afternoon and cannot be at work until Monday afternoon.
- Question:** What should you do?
- 1** Sign the contract on Monday afternoon.
 - 2** E-mail the client right away.
 - 3** Have Ivan rewrite the contract.
 - 4** Ask Ivan to come over tomorrow morning.

一次個人成績表に合否結果を記載して、**7月4日までに送付**します（合格の場合は、一次個人成績表の右上部分が二次受験票になります）。未着の場合は7月5日以降に英検サービスセンター03(3266)8311（平日10:00～17:00）までお問い合わせください（お問い合わせの際には受験番号もお知らせください）。

◆団体申込みの場合

一次試験の結果は、**7月4日までに申込責任者あてに送付**します（個人あてには送付しません）。

3) 合否およびスコアの通知について

合格者には「合格」、不合格者には「不合格」で合否結果を通知します。また、技能別スコア、合格スコア、解答状況、技能別正答数も表示されます。なお、各技能は下記の大問により測定されます。

*「Reading」—大問[1]～[3] *「Writing」—大問[4] *「Listening」—Part1～3

■二次試験について（一次試験合格者のみ）■

1) 試験日 2016年7月10日(日)

2) 受験地（希望の受験地を選べます）

下記の二次試験受験地番号表をみて、希望の受験地番号を解答用紙の所定欄に記入・マークしてください。

3) 受験会場と集合時刻（協会が指定します）

二次受験票（一次個人成績表の右上部分）で通知します。これを切り離してお持ちください。ダブル受験（準1級と1級または準1級と2級）で一次試験をどちらの級も合格した方は、午前に準1級、午後に1級または2級の受験となります。

■二次試験受験地番号表■ * 横浜・東京・大阪は下記、島部・海外は右記参照
