4	Hi Beth, Thank you for your questions. I would get distracted if I listened to music while studying, but some people say it helps them to concentrate and remember things. They should only be allowed to do it at home, though, not at school. Regarding your second question, I think that sharing a house or apartment is a good way to meet people and make new friends. It is also economical because you can split the cost of gas and electricity bills. Finally, congratulations on becoming an aunt! I think new fathers should take time off from work because they will be able to spend more time with their children. They will also be able to share the child-care duties with their wife. I hope my answers help. Kazu
